

I strongly oppose Sinclair using their control of the airwaves to support a political candidate. By law, the public airwaves are to serve the public interest of a democracy. Sinclair's actions weaken media ownership rules and demonstrate the need to review the license renewal process.

I am astonished by the type of mud slinging this election has brought forth and how the media has supported it. Our image is tarnished. You can help bring back the ideals of those who sacrificed for our democratic process. Please do not let money influence your decisions to risk legal problems. Thank you.
